

WILL WORK MORNINGS

Parliament Getting Down to Business
to Wind up the Session

Ottawa, June 18.—Sir Wilfrid Laurier stated in the House that morning sessions would begin on Wednesday when Sunday observance would be proceeded with.

The House went into supply on \$50,000 supplementary for Immigration. Mr. Monk asked Mr. Oliver what he was going to do with Mr. Preston, as all the labor bodies wanted his dismissal. Oliver replied that the government would make an investigation into the London office and if there were defects they would be remedied. Mr. Monk insisted upon getting a definite answer but Mr. Oliver said that the government would require time to look into the matter. Mr. Monk gave notice that he would move a resolution on going into supply to dismiss Mr. Preston. The item of \$50,000 was passed. The Pacific & Eastern Railway Bill was given the third reading in the Senate. Incorporation was asked for from Victoria, B.C., to Prince Albert. The line to Port Churchill was dropped.

In addition to the changes already mentioned in connection with the grading of wheat it is understood that all winter wheat will be graded under the name of Alberta which has secured its identity as a peculiar hard type of winter wheat, and already known to Canadian millers and Liverpool dealers as Alberta wheat. Winter wheat will in all probability be graded an Alberta Red, No. 2 and No. 3, and Alberta white Nos. 1, 2 and 3. The privileges which are given to wheat going east will be extended to shipments west, as a considerable quantity of this grain will find its way to the Pacific.

CANNERS MAKE A DISCOVERY.
Vancouver, June 18.—The salmon canning interests in British Columbia have suddenly awakened to the fact that if the Sunday legislation now before the House of Commons goes through as it stands fishing operations and fish canning will be absolutely stopped on Sundays. With full realization of their position the canners are keeping the coast members of parliament on the jump at Ottawa and owing to the tremendous pressure being brought to bear it is likely that the labor of the salmon canning interests will be exempted from the stringent terms of the legislation.

MIXED TRAIN JUMPED THE TRACK
A train wreck occurred on the Canadian Northern two miles east of Fort Saskatchewan yesterday afternoon by which three freight cars were derailed and traffic was delayed for several hours.

The regular mixed train was making its way westward, when a coupling broke about four cars ahead of the passenger and one of the freight cars jumped, pulling a couple more off the rails after it.

The passenger cars held to the rails and except for a little shaking up the passengers were not injured. The passengers were brought into the fort and repairs commenced at once. The regular express was delayed three hours on account of the mix-up.

MAIL SERVICE OVER THE C.N.R.

Instructions Given for Daily Mail Service on New Line

Secretary Fisher, of the Board of Trade, is in receipt of a communication from the Postmaster General announcing that instructions have been given for beginning a daily mail service between Edmonton and points east over the C.N.R. The new service will come into effect as soon as the necessary arrangements can be made.

GOVERNMENT ROAD TO MUNDARE.

Mundare, June 18.—A grading outfit commenced operations a few days ago on the Government road which is being built from Mundare, on the Canadian Northern Railway, 53 miles east of Edmonton, to the Saskatchewan river. It extends due north from Mundare to Paken, passing through the towns of Andrew and Hunka. Another road branches off at a point 13 miles north of Mundare and runs east for six miles, skirting the southern end of Lake Whitford, then directly north to the Saskatchewan river, taking in the towns of Whitford and Shandro. At Shandro the Government is putting in a ferry.

This road taps a rich and thickly settled country and will be of inestimable value, not only to the settlers living between the Canadian Northern Ry. and the Saskatchewan, but, on account of the ferries being installed at the end of both branches, will serve as an outlet to the railway for the immense country north of the Saskatchewan. The development of this country has been greatly retarded because of the fact that, prior to the building of the C.N.R., the nearest railway shipping point was Strathcona or Edmonton. It is very evident that this provincial appropriation for the road means a long felt want.

The advent of the C.N.R. into Edmonton gave the people of the Victoria and Beaver Lake districts a railway a little nearer home, but did not provide much better shipping facilities than formerly. Heretofore, the only available means of reaching a shipping point was via the old "Victoria Trail," still necessitating a long journey. The new road will afford communication with Mundare, on the C.N.R., which will be the distributing point for the towns to the north, also for a large section of the Beaver Lake district, eight miles south of Mundare.

Realizing the very accessible location of the townsite of Mundare, the people of the Victoria district applied to the Government for a road at the member for Victoria, F. A. Walker, M.P.P., the appropriation was granted. In anticipation of the great amount of business to be done at Mundare immediately upon completion of this road the Railway Co. commenced work on a new depot a few weeks ago which is now nearly completed. Stock yards and an elevator will also shortly be built, and a flour mill is already in course of construction.

ONE KILLED THREE WOUNDED

A Result of an Attempt to Get Crew to Desert a Vessel

San Francisco, June 18.—One killed and three wounded in the result of an attempt by union sailors to induce the crew of the schooner "National" to desert. A city launch occupied by fifteen sailors approached the sloop with the intention of trying to make the sailors desert. As the launch approached the vessel a shot was fired, followed by a volley. The launch at once returned to the city bringing the wounded to the hospital. No arrests were made, as the schooner moved out into the bay.

FEELING SCARY ABOUT RESULT

Calgary Paper Prepares a Soft Spot to Drop in When the Census Enumerator Gets Through

The Calgary Albertian says: The real population of the city of Calgary will not be known even after the next census on account of the method that will be adopted in arriving at the census.

The population of Calgary proper will be ascertained all right, and by the different wards.

The population of Rouseville and Riverdale will also be published. But the population of the other suburbs such as Hillhurst, Bankview, Bonnybrook, Brewery and others, which must have close to 500 population, will be bulked in the district which surrounds Calgary and stretches nine miles north. Calgary will be enumerated according to wards, the divisions being the same as the municipal wards. The Calgary enumerators are Messrs. N. L. Geddes, Munro, McLeod, and R. Lake. The enumerators for the district about Calgary, is A. Parkin.

The count will be upon the even day of Sunday, June 24. The census takers will be around shortly after that time.

PRIMARY SCHOOL FOR CENSUS TAKERS

E. C. McPhail, the man sent out by the Ottawa government to superintend the taking of the census in Alberta is engaged this morning in conducting a primary school for census enumerators. All the appointments to the office of census enumerators who have no far showed up are being instructed by Mr. McPhail in the work which they are to do. The questions to be asked will not be as extensive as those asked in 1901. They will include name of person, relation to head of household, sex, married, single, etc., age, birth place, when came to Canada, post office, street number, live stock, etc. In the country there will be some additional questions asked.

The names of the enumerators are not yet available as some few appointments have not yet put in an appearance but unless they do so by tomorrow others will be put in their places.

BALL SCORES.
Winnipeg, June 19.—Winnipeg 5 Du-luth 2, Fargo 4 Hancock 2, Calumet 3 Grand Forks 2.

DOUBLE TRACKS FOR THE C.P.R.

Doubling Facilities From Western Lines to Head of Waterway System

Winnipeg Free Press: Two hundred miles of double track in operation this fall. This is the ambition of the C.P.R., which is pushing the work now in progress between Port William and Winnipeg with all possible speed. This means practically half of the total distance, which is 425 miles. It means much more, too, for with the double tracking comes better grain handling facilities faster trains, larger loads and better speed. What this signifies to the west can be readily understood by anyone who has the most rudimentary knowledge of western conditions.

Last week the writer was given the opportunity of going over the whole of the work now in progress. The trip was made wholly by daylight, and every opportunity was given to observe the work in detail. During the later part of the winter the sametrip had been taken and the change in the whole aspect of the line was remarkable. From Port William to Moisson it is a veritable hive of industry. Steel laying has begun, a large amount of grading is completed, mile after mile of steel and ties are distributed in readiness for the construction gangs and rock cuts and tunnels are being pushed all along the line.

The company has decided upon a minimum of four tenths of one per cent against all traffic except at Dexter. At several points on the old line there was a maximum grade of one per cent. Where possible these will be cut down but in some instances this has been found impossible, and an entirely new line has been surveyed. Again there are points where there is a long heavy hill against westbound traffic, with no corresponding down grade. Here the old line will be maintained for eastbound traffic, but for the westbound a separate line has been run, some distance away, on which the desired grade has been secured. Where possible, also, many of the old curves have been straightened.

In one instance the new line is a comparatively straight one, crosses the old at three points within a couple of miles. At one crossing the new dump is some ten feet higher, but it shortens the distance, eases the grades, and makes easier hauling. Leaving Port William the first of the double tracking was encountered immediately at the end of the yards. Here the work is easy and ten miles are now ready for the steel. The method employed here is the same as on the prairie sections. Hart convertible cars are loaded with about 20 cubic yards of earth by a steam shovel. They are to be dumped and the material ploughed off on the side of the track where hauled to the point where they are the new line is to be laid. A spreader is immediately run over the line and the earth is distributed where it belongs. When a section has been completed the construction train follows with the rails, ties, angle bars, bolts and spikes, which are dropped off where they are to be laid, and a gang of laborers quickly place them in position. Then the Hart cars are changed into centre dump cars, the new line is connected up with the old and the ballast is distributed between the rails with great speed. The line is raised to the required grade, straightened, and is ready for traffic.

In this the company has been greatly assisted by the work of several years (Continued on Page two)

SOLDIER BOYS ARE IN CAMP

"A," "B" and "C" Squadrons Went Into Camp Today on Groat's Flat

The newly organized squadrons of the Canadian Mounted Rifles went into camp this morning on Groat's flats, west of the city, for their first annual training. The camp will be of two weeks' duration, ending on the 30th inst. The squadrons in attendance will be "A" Squadron, Edmonton, "B" Squadron, Strathcona, and "C" Squadron, Port Saskatchewan.

A fatigue party of four men from "A" Squadron in charge of Quartermaster Sgt. R. W. Day, went into camp yesterday to pitch tents and prepare the grounds for the troops. The local squadron, in command of Major S. C. Paton, paraded at 8 o'clock this morning and proceeded to the grounds. The troops presented a showy appearance in their red tunics and white helmets. The camp will be in charge of Col. McDonald of Winnipeg. Capt. Mackie, D.S.O., of the C.M.R. permanent corps, Winnipeg, will act as adjutant to Col. McDonald, and Sgt. Jackson, of Winnipeg, will be attached as sergeant instructor.

The local squadron were put through a couple of hours of rifle and marching drill last evening, in command of Capt. Saunders, adjutant, and Lieut. Griesbach. Mounted drill will be taken up as soon as the camp is underway.

TOWN AND COMPANY.

Toronto, June 18.—Chief Justice Meredith this afternoon granted to the Kewatlin Power Company an injunction restraining the town of Kenora from restraining the erection on the east branch of the Winnipeg river, of a municipal power plant. The town is erecting a dam on the river, half the bed of which is claimed by the Power Company, and the other half by the Hudson Bay Co.

"It was an extraordinary thing that the local authorities should give possession of property on defendants paying into court the trifling sum of \$200. It is almost a scandal," said the Chief Justice. "That a thing of that kind can be done in the name of the law, and on that account alone I grant an injunction. I should be lacking in my duty if I did not." The trial was set for July 1st at Kenora.

Additional Locals

—W. S. Gray, late of Grenfell, has been appointed manager of the Dominion Bank branch to be opened here. He is expected to arrive in a day or two, when the bank will immediately open for business.

—Last night the local graduates of Mt. Allison University held a banquet in the Allen building of Alberta College. There was no formal toast list, but a number of informal speeches were made and many interesting reminiscences indulged in.

—While moving the circus from Edmonton to Strathcona last night one of the big wagons of the Norris & Rowe outfit upset on the grade on the first hill on the Strathcona side. The wagon was gotten out with some difficulty this morning.

PRISONERS DISCHARGED.
Brookville, June 16.—Investigation into the Allen poisoning case at Ladangdown before Judge Wilson resulted in Mrs. Allen and Walter O'Connor, prisoners, being discharged because of want of evidence.

RESOLUTION PRESENTED TO RAISE STATUS OF ALBERTA COLLEGE

MR. WHYTE IS WORRIED

But Keeps on Double Tracking the Road

Montreal, June 18.—"If Hill, after completing his railway connections, can induce the wholesale dealers of St. Paul and Minneapolis to cut their prices for Canada, the entire western trade of the Dominion will be lost to Eastern Canada, if the country itself is not lost to the British empire." This strong statement was made tonight by Vice-President Wm. Whyte, of the C. P. R. One hundred miles of double track between Port Arthur and Winnipeg will be completed when the crop is ready.

MURRAY NOMINATED IN NORTH RENEWED.

Pembroke, June 18.—Albert Mackay, Liberal, son of the late T. L. Mackay, ex-M.P., was nominated for the House of Commons at the bye-election here today for the vacancy caused by the death of Hon. P. White, Conservative. Mackay stated that if there were any other names to be placed before the convention he would resign. Thomas Murray, formerly Liberal member for Pontiac, was then nominated in his stead.

TIPPED THE BOAT.

Montreal, June 18.—Mrs. Y. Gagnon, a widow, of St. Dominique street, and Emile Picot, engaged at the Ballees yards, were drowned Sunday owing to the foolhardiness of a companion who stood up in a row boat and upset all three in the water. The accident happened near Dominion Park.

By Adding Full Arts and Theological Courses at Once

Yesterday afternoon in Alberta conference was devoted to the reception of the reports on the various phases of church work.

Principal Riddell presented the report of Alberta College. Among other things the principal stated the aim of the college was to run on business lines, but would never allow that aim to hinder its usefulness as a public institution. The public should never lose sight of the fact that there were considerations that stood in the way of running a college like an ordinary business concern. The primary aim was to touch the lives of the young men and women and enrich the citizenship of our growing province.

From a financial standpoint, the report, which will be found in another column, was very satisfactory, and showed careful and progressive management.

In seconding the report Mr. Powler of Wetaskiwin, said it was a matter of the greatest satisfaction to have the college in such a flourishing condition, and to see so many of our young people avail themselves of the means to better training. He suggested that the report be put in the form of a circular letter and sent to every pastor to be read from the pulpit on the first Sabbath in August.

Mr. Chisholm of Edmonton, referred to the beneficial work of the college and its effect upon the business life of the country. At this point the president of the conference asked what effect the future growth of high schools would have upon the college. Would these schools draw from the college?

The Principal and Dr. McDougall

We have still some fine lots on the Norwood, King, Bowell, Fairview and Groat Estate that we can sell cheap and on easy terms.

Ascol Park. We have three high and dry 5 acre lots all left on Park Street, \$350, with \$200 cash and balance easy.

Call and inspect our large list.

RESOLUTION PRESENTED

(Continued From Page One)

were sanguine of the future. The principal referred to the significant fact that though we had a high school at our doors where tuition was free, yet it seemed in no way to affect the attendance at the college. He thought it was due to the fact that parents prefer to have their children placed in a residential college, where competent authority is responsible for them.

Rev. Mr. Johnson of Strathcona, was of the opinion steps should be taken to add a theological faculty. Such a step was necessary to insure the continued support of the general body of the Methodist throughout the province. The following resolution was then submitted by Rev. Mr. Huggins, of Lethbridge and Rev. Mr. Hunt of Calgary:

"Whereas we have just heard with great satisfaction the excellent report of the work done by Alberta College during the past year; and

"Whereas Alberta College, by the rapidity of its growth, and the efficiency of its work under the able leadership of Principal Riddell, with the assistance of his staff, and through the wise management of the Board of Directors, has taken a commanding position among the educational institutions of our church; and

"Whereas the time has now arrived, in our opinion when Alberta College should undertake the full work in both the Arts and the Theological departments; and

"Whereas it is a decided disadvantage to the Alberta Conference to be in a position where it cannot send its young men to Alberta College for preparation for the work of the ministry; and

"Whereas we have every confidence that Alberta College will become one of the strongest educational institutions of our Dominion, and a mighty factor in moulding the life of our western country; and

"Whereas an educational system is taking form in our province with which our church should keep in touch through its educational facilities; and

"Therefore we would respectfully request this conference to memorialize the General Conference to place Alberta College in the same connectional relation as is enjoyed by our sister colleges of our church, and we pledge ourselves to give to the institution our heartiest support."

Principal Riddell announced that two more professors would be necessary to undertake the additional work, and warned the conference against any action that would stultify the college when the provincial university was established.

SUNDAY SCHOOL REPORT

The following report on the Sunday schools was presented:

Number of Sunday schools 123, increase of 23.

Number of scholars 5,109, increase of 584.

Amount received for all purposes \$3,398, increase \$25.

Amount raised for missions \$278, increase \$121.

Amount raised for Sunday school extension \$64.

Number of scholars attending union school 301, increase 151.

Number of scholars uniting with the church during year 203.

Number of Sunday scholars who are church members, 1213.

Number of periodicals purchased from the Methodist Book Room, 7677; increase 772.

The committee on Sunday schools recommended that Sabbath school be organized at every appointment, and where this was impossible a home department should take up this work.

The following is the Sunday school committee for next year: Messrs. P. E. Butcher, A. F. Gray, J. B. Howard, R. E. Finlay, W. J. Howard.

EPWORTH LEAGUE REPORT

Following is the report of the Epworth Leagues:

Number of senior Leagues 39; increase 8.

Number of Junior Leagues 8; increase 2.

Total number of Leagues 47; increase 10.

Members in senior Leagues 1359.

Members in Junior Leagues, 230.

Amounts Contributed:

Local Leagues to society purposes \$408.

General Epworth League fund \$38.

Missionary gifts \$816.

Other purposes \$440.

Total \$2066.

Copies of Epworth League Era taken, 136.

The committee desired that summer schools be held to educate our young people in better methods, and stimulate a deeper interest in every branch of Young People's work.

The conference commended the city council for its action in vetoing the liquor license and the government of this province for making it practically impossible for persons to establish hotels except at important points, viz., by making it impossible to have a license in a place with less than 40 householders to an area of 960 acres.

A deputation from the W. F. M. S. appeared before the conference conveying greetings and urging that branches of the W. F. M. S. be formed on every circuit and if possible at every appointment. Mrs. Fyfe, of Edmonton, spoke on behalf of the deputation.

Rev. O. Darwin, Superintendent of the church in Manitoba, was asked by President Kirby to address the delegates. He said he remembered the time when he knew every Methodist minister in the west, but the work had grown so rapidly that such a thing was now impossible.

The following is the report of the statistical committee submitted at this morning's session—

Present total membership 5909

Increase	3.12

REV. W. K. ALLEN, M.A., B.D., Conference Statistician.

REV. J. H. JOHNSON, M.A., B.D., Secretary of Conference.

The committee appointed by the conference early in the session reported to-day that the recommendations were considered clause by clause. It was agreed that it was imperative to have boarding schools maintained on the fields where Indian schools are in operation to obtain the best results.

Rev. Mr. Rice of Red Deer thought the boarding school idea hardly solved the difficulty though it relieved it somewhat, as the Indian did not appreciate the value of education.

The committee reported that the irregularities of the Morley Indian Mission, which had taken place under a former management, were being investigated by the competent authorities of the General Board, hence the Conference took no action in the matter. It was the opinion of the conference that something ought to be done to reconcile the Government of the Government and the agent of the church. The conference rose at 12 o'clock and assembled on the bank by McDougall church for their photograph.

A vote of thanks was passed by the Conference conveying to the Rev. John McDougall, the retiring president, for his services, in the expression of the phrase of the president-elect, "for the past year, and all the long years of the past."

DOUBLE TRACK FOR THE C. P. R. (Continued From Page One)

past. When the traffic increased and new equipment had been added to an extent that the number of trains was trebled and quadrupled, additional passing tracks were put in at many points along the line. Many of these were a mile in length. The majority of these will be added to the double tracking, so that it merely becomes a question of connecting these passing tracks. In the whole 425 miles between Fort William and Winnipeg there are 78 miles of these sidings now in. They are from two to seven miles apart for the whole distance. As fast as they are connected up the line will be put in service for construction trains, eliminating many of the delays to traffic which would otherwise occur. When the grain season starts they will be well broken in for the heavy traffic, of which they will handle their share.

After leaving Kaminitiquia, west bound, there was little of the double tracking in evidence till near Eagle River. East of that town the spreaders are at work on a big fill, and an extra gang is raising the level of the old track to ease the grade. Material for this work is being obtained from a big cut at Notman, where there is a diversion several miles in length being run through a sand and gravel ridge. This cut will be about 30 feet in depth, and the diversion gets away from the heavy fill which falls in either direction from Notman siding. There is but a short section of this cutting yet to do, and one of the huge steam shovels is eating it away at a rapid rate. A stop of a couple of hours was made at this point and very detail of the work gone over. There are six miles ready for the shovels. From that point on there is hardly a mile where grades are not at work, either under the direct control of the C.P.R. or under Forey Bros. & Larson, who have the contract for the double tracking.

Between Deception and Busteed there is a diversion which cuts off a reverse curve, the new line crossing at a different gradient at two points. Heavy gangs of men are starting work west of Hawk Lake, and along the shore of Long Lake. At Scott, one of the most tradeable lakes on the line, the new grade is connected up to the lake. Here may be seen the bridge to be built, which was abandoned a couple of years ago, as the bottom of the lake was not firm enough to hold it. A trestle and fill will cross about 100 yards to the north of the present location. There is a cut, tunnel and single track diversion between Cross Lake and Ingot, which is also rapidly nearing completion.

GREAT CLEARING SALE

Of Furniture and House Furnishings.

We have just added two carloads, of furniture, iron beds, etc., to the stock saved from our recent fire, and we will clear the whole stock out commencing

SATURDAY, THE 16th JUNE.

Our stock is complete, consisting of beautifully finished dressers and chests, bedsteads, dining tables and chairs, centre tables, rockers and Morris chairs in quartered oak, mahogany and e.m. Couches, iron beds, carpet squares, linoleum, china and glassware.

Come early and get first choice, as the stock will not last long at the price.

C. E. MORRIS.

Temporary premises—Just a step down the first lane, off Jasper on the east side of McDougall Avenue.

DICKSON & CO.

This list changed every three days. Four out of eight of our last selections were sold. That shows they were snags. How are these for June 16th, 1906:

1318.0. New two storey six roomed frame house, brick foundation. Lath and plaster. Close in on Greenleaf street. \$1200 cash balance 2 years. Rented now for \$18 per month. Here's where you clear 12 per cent on your money. Just figure it out at that rental.

1375. Nine little 3 roomed house and kitchen on Morris street. Cash \$140. A genuine bargain. Go and look at this. You will surely buy if you want a home. Rented for \$10 per month.

13700. Neat two storey 5 roomed house on Syndicate Avenue. Brick corner. Good stable, \$800 cash. Another good proposition with all the water squeezed out of the price.

14330. West end snap! A 9 roomed house on Fifth street between track and Jasper Avenue. All conveniences, water, sewer, light, etc. Lot alone worth \$2000, cash \$1350, balance like paying rent. Will trade for east end of other property.

A Western Forest Reserve

A writer in the Canadian Forestry Journal describes the Turtle Mountain forest reserve in Manitoba, one of the western reserves for the protection of which a bill was recently introduced by the Minister of the Interior.

"During the past summer the Forestry Branch made an examination of the Turtle Mountain Forest Reserve in southern Manitoba, with a view to obtaining definite information as to the condition of the present stand, the possibilities of timber production and the steps necessary for the protection of the forests growing thereon.

"The reserve covers 69,930 acres of rough, hilly and sloping country in Township 1, Range 19, 20, 21 and 22, and is almost always the case in the Middle West, where there are hills or water you will find timber, as a result of these natural fire breaks protecting the trees from the fires that sweep over the prairie.

"The general elevation is only 300 to 500 feet above the surrounding prairie. Lakes and sloughs cover about 1500 acres, leaving 55,000 acres of timber producing land. As a glance at the map will show, the country to the north and east is watered by many streams that rise in these hills. Some of these form the head waters of the Pembina and Whitemud lakes, but a number of others lose themselves on the prairie.

"The mature stand is composed of aspen 43 per cent.; balsam of Gilead 14 per cent.; white birch, 21 per cent.; scrub oak 9 per cent.; ash, 8 per cent.; elm 5 per cent.; and an occasional Manitoba maple. There was originally a much larger proportion of oak, but the demand for oak logs and posts has been so great that now very little remains.

"Since the advent of the settler fires have been so frequent and so destructive that now only 1600 acres remain uninjured. On 6400 acres the forest has been partially destroyed and the remainder is devoid of large timber, but is covered with a dense reproduction which is protected from further fires will in a few years produce even a better stand than the original.

"Several small sawmills have in the past operated in these forests, but at present only one is left and it takes only a small number of logs for a limited local trade. The day of the log buildings is past. In this region, so that now the main uses of the reserve are to supply fuel and fence material, to protect the watershed, to harbor game, to serve as a pleasure and health resort, and for its general ameliorating effect upon the climate.

"Farmers living within a radius of 50 miles come to the reserve every year for their wood and during the last three years an average of 435 permits have annually been granted to settlers, who have taken out 4,960 cords of fuel, 25,000 b. ft. of logs, 3,350 fence posts, 715 roof poles and 260 fence rails. As private lands outside the Reserve become cleared and the population increases, the demand on the Reserve timber will become greater.

"The present stand contains approximately 75,000 cords of green wood and 50,000 cords of dry wood, fit for fuel. About 1,333,000 b. ft. of saw material could be cut from the green wood. Though the amount of green timber is small, there is a most excellent reproduction throughout the Reserve, which, from the standpoint of the forster, is the most important part of the stand.

On account of their ability to throw suckers, the aspen and balsam reproduce more readily than the other species and form respectively 81 per cent. and 12 per cent. of the reproduction.

With a rotation of forty to fifty years, which would be sufficient for fuel production, an annual cut of one cord per acre or 55,000 cords could be made without reducing the capital stock. This amount would supply a farming area of over 2,000 square miles with fuel and fence material.

This supply of wood in the midst of a bare prairie country, is of great value to the settlers and there is no reason why, if protected from fire and indiscriminate cutting there should not be sufficient timber produced on the area now reserved to supply the local demand for all time to come.

"Placing the value of the wood at the low figure of \$1 per cord, the annual revenues of the Reserve would be \$55,000 which justifies considerable expenditures for protection and improvement. There is no reason now, when the pioneer days of the country are past, that the farmers should not pay for their wood, at least enough to make the reserve self-sustaining. In this way the expense of administration would be borne by those who are benefitted by it, and they would be more directly interested in having the forests protected.

"This Reserve, though not large, is of immense value to the surrounding country, and as the land is not at all suitable for agriculture it should on no account be opened for settlement, or the timber allowed to be destroyed."

The Transition

"M. C. B." writing in the Toronto Star, from Regina, says: The day when the west was "wild and woolly" is passing. If it has not passed, and in Chinook, we all exclaim "akokum," which, being interpreted, means it is gone.

Tradition tells the bad man out in chaps, embroidered and befringed coat of buckskin, and a sombrero. In the person of the cowboy, and his eastern imitator, to outward semblance, he still rides the range, and struts about in the towns, but when you come to know him he is a mild, inoffensive chap, much of the same nature as the Toronto youth, who is attracted by the gorgeous raiment of the 48th Highlanders and is not happy until he wears the kilts.

Speaking of the kilts, two sturdy lads from Dundee, with fine, well-developed calves for their legs, have created a mild sensation in the streets here. Aye, and thereby hangs a tale.

Macpherson and his wife, who were out for a walk on the Sabbath, amid the wee laddies, and despatched them to their parents, saying a Scot wad a crack with them. And then the Macdonald family, homelike on the black prairies, for the red granite streets of Dundee, went with the Macphersons to tea, and found themselves at home with countrymen, even if they were from Glasgow. The claimant of the Scots is a grand thing, whatever, and there are many sore hearts on the prairie that wish they were Scots to find a welcome, because of their country. Mrs. Macdonald assured a friend that that welcome was worth more just at that time than all the silver in Cobalt or all the golden grain of the west. There he many such as they in the west and all over Ontario too.

To resume, the fact is the bad man never flourished here, for the Riders of the Plains in His Majesty's scarlet saw to it that he never became bad. The imitation bad man was shown the folly of his ways, and the "real thing" was put where the wicked cease from troubling—other people. At best the wild and wooliness of the west is accountable for by the persistence of tradition and by the desire of writers for traditional local color.

The predominant local color of the west has been always scarlet, the symbol of the authority of the law, and yellow gold. The symbol of the fruits of peaceful bucolic labor, green, has been left to the east, and the other things of that color. In the autumn, harvest hands and others from the verdant east come out here with an idea of painting the landscape red, but they find the operation very expensive, as the magistrates are very unsympathetic, and the people have no great desire to have their landscape discolored crimson.

In fact the wild and woolly features of western life have in the past consisted mostly in the directness of manner and purpose of the people and the makeshift character of the dwellings of men and their gear. Even in these respects the wild and woolly character is now ending or at an end in the older communities.

With the increase of wealth has also come a desire for improvement in the environment of the home and the town. Evidence of this tendency can be seen on every hand, and in all aspects of community life. Nature has done so much for the beautifying of eastern cities, what it denied these advantages to those of the plains. Nature has been so prolific in her gifts of fertility of soil, but she has withheld the natural charms of verdant hill, rock and water, and trees, beautifying despite the hostility of men.

In the east all that is necessary is to give nature a chance, and the waste places will bloom into beauty of shrub and tree. In the west these have to be cultivated with the care, almost, that you bestow on hot-house flowers. Despite these disadvantages, the people of the west are showing a laudable desire to improve their surroundings.

Perhaps the most notable evidence of the desire for betterment is in the care of private grounds. Even last year the majority of the residences of this city were set out on the open prairie. The grocery wagon drove up to your back door, even on a ramped across your lot, for a short cut, and the front lawn was ornamented with wild barley and other abominations in the western weeds. Now it is becoming the fashion to have your grounds trimly fenced, a nice vegetable garden in the rear, and trees and flowers and a lawn in front. When an Englishman tells you there are no lawns in Canada, that it takes two centuries to make a lawn, you do not believe him, until you have seen a real English lawn. Then you know he spoke the truth. Perhaps to eastern eyes our lawns here may be poor things too, but they are none the less beautiful and worth having, for they can be made in time. The first years it is necessary to grow potatoes to lean up the clay, but potatoes are green and wholesome looking plants. In a few years thereafter you can have a lawn that is a thing of joy even if there are finer in Toronto or in England. Flowers and vegetables grow in such profusion that there is no excuse for having a fine house surrounded by burned up grass and tin cans. As I came along the street today I saw three apple trees in full bloom. One man was so careful that he had built a tent of cheese cloth over his to protect it from possible frost. The pink bloom was a joy to behold, even through this veil.

The Wild and Woolly West is passing, and a newer and a better west is blossoming forth in its stead.

CURRENT COMMENT

The Public Works Commissioner ob-
jects to his plans being treated by the
Kesley cure.

The Car and the Douma appear to
be of the same mind on at least one
point; each has about concluded that
the other ought to be abolished.

Alderman Griebach contends that he
has not been damaged by the restaur-
ant license. This is good news, but
it is only the negative side of the case.

Premier Whitney has retired Andy
Ingram, M. P. from Federal politics
by appointing him a member of the On-
tario railway commission. The appoint-
ment was doubtless designed as "a
measure for the relief of Mr. R. L.
Borden."

The Winnipeg Telegram argues that
United States under twine is imported
into Canada, that the importation
determines the price of twine in Can-
ada and that therefore the way to get
cheap twine and plenty of it, is to ex-
clude the United States article; in other
words to increase the supply cut off
one of the sources.

The board of trade delegates who
were so certain of the impracticability
of the Hudson's Bay route, should com-
municate their information on the sub-
ject to the Hudson's Bay Company.
That company appears to have been
laboring under a delusion to the con-
trary for the past couple of hundred
years and their ships continue to sail
between Britain and the ports on the
Bay. It would be "at least
charitable to let these novices know
they are tackling the impossible.

ANOTHER "KNOCKER"

The Pioneer Journal, published at
Wadena, Minnesota, publishes an inter-
view with one Frank Jungbauer, who
claimed to have recently returned from
the Battledore district, and who hands
out a very vigorous "knock" to that
district. He says there was frost on
May 16th; that water was scarce, that
prices for implements and stock were
exorbitant; that station agents and
restaurant keepers were swindlers and
work was so scarce that men worked
for 50 cents per day.

There is nothing new in this type of
fiction, we have heard it all before and
much more—and couched in much
stronger terms than the language of
the gentleman from Wadena county.
In the tremendous movement, to the
Canadian west it is impossible that
some will come who do not want to
find a good country and some also who
do not know a good but underpopu-
lated country when they see it. The reports
of such are predetermined either by
prejudice or incapacity and should be
considered an evidence of misfortune
rather than criminal intent.

Besides there is ample evidence that
Mr. Frank Jungbauer was very, very
homesick. He was forced to pay 50
cents to sleep on a floor, when a downy
pillow awaited him in Last River
Township. And he "suffered consider-
ably from the cold." His conclusions

"Wadena is good enough for me." Then
why on earth didn't he stay there? A
man who does not know enough to
camp permanently in a country that
suits him, ought to be muzzled when
he goes abroad. Such individual is
bound to consider a different country
as necessarily a poorer country and
will attribute his disappointment in it
to the country and not to his own
limited conception and experience. The
best that can be hoped is that few of
these men will visit Canada and that
their sojourn here will be brief.

The people western Canada want
the people who are not satisfied with
their present locations elsewhere and
who are prepared to believe that a dif-
ferent country may be a better coun-
try. The thousands of such people who
are now among the prosperous citizens
of western Canada are the living wit-
nesses to the merits of the country.
These people came with minds willing
to believe good rather than evil of the
country and settled down to work out
the problems of life and livelihood with
the means at hand and under the con-
ditions as they found them. The suc-
cess of such has justified their faith
even to their own satisfaction.

Against this testimony the occasion-
al "knocks" of those who visit the
country, either with exaggerated ex-
pectations of its conditions or with
convictions of its inferiority will count
for little. Western Canada has long
suffered from such attacks and its ever
increasing progress and prosperity is
the unanswerable reply to such critics
and the unquestionable testimony to the
merits of this country.

A DEFENCE OF THE PACKERS

Copies of the following article from
the Chicago Tribune are being circu-
lated, presumably by the parties in-
terested in allaying the public feeling
over the charges against the Chicago
packing house methods:

MEAT INSPECTION IS DEFENDED.
Dr. Bennett, Government Official at
Yards, Declares Tainted Meat
is Destroyed.

Dr. S. E. Bennett, chief government
inspector at the stockyards in this
city, in speaking of the present meat
inspection yesterday, reiterated with
emphasis his assertion that "not a
pound of tainted meat escapes into
the local market."

"I never saw anything like the frenzy
displayed over this question," he
said. "Men who never saw the interior
of a packing house are learnedly
discussing the necessity of giving the
inspectors the right to destroy all
the meat they condemn. They do de-
stroy it now. They always have
done so, at least since I came here
ten years ago."

"Just as soon as the 'tagger' puts
the 'auspicious' tag upon a carcass
it is hauled off to the government
room and locked in there. No one
has the key to that room except the
government. By and by the inspec-
tor, who is a trained veterinary
man, comes around and examines the meat.
If his judgment corroborates the ver-
dict of the 'tagger' then the animal
is dumped forthwith into the tank
and converted into fertilizer. The
packer gets nothing of that animal
except the hide, horns, hoofs, and the
fertilizing material."

"For anyone to assert condemned
meat escapes into the local market
or into any other market is the ver-
iest nonsense."

While it is the privilege of the ac-
cused to defend themselves, and while
such defence should not be discounted
by presupposition of their guilt there is
nothing in the circumstances or na-
ture of this interview to meet the re-
quirements of the case. If the packers
are in any degree guilty of the
charges that have been brought against
them it would be right in line with
the tenor of their conduct to circulate
such "interview" wholly regardless of
what it might cost either to "secure"
to publish or to distribute it. If there
be any truth in the report of the com-
missioners there is a measure of blame
attaching also to the officials in charge
of the inspection of the packing
houses and the head of the inspection
department might be supposed to be
quite ready to provide an interview in
defence of his own administrative re-
cord. The line of the interview, its
worthy of note, is merely a recital of
the general system of inspection adopt-
ed, and utterly disregards the ex-
plicit charges of the commissioners
that this system was not enforced or
observed. The assertion that it is
nonsense to suppose that tainted meat
escapes into the markets may be the
honest opinion of the chief of inspec-
tion, but if the commissioners' charges
have a foundation of truth the real
nonsense would be to suppose that any
considerable quantity of tainted meat
escaped getting into the markets.

New Blouses Just Received

We have just received and opened up a line of new blouses, in white
lawn and colored and white lustrous. These goods came in by express, and
represent the latest Toronto styles.

A SPECIAL IN LUSTRE BLOUSES
This is extra good value in a fine
lustrous, trimmed back and front
with rows of tucks, colors sky
blue, navy, white and black, very
special value at \$1.50 each.

NEW LAWN BLOUSES
Just received by express a line of
the newest Toronto styles in white
lawn blouses, beautifully trimmed
with lace and embroidery insertion,
very pretty and only \$2 to \$2.75

WHITE SILK BLOUSES
Wearing showing a very large range
of new white silk blouses in a
number of good designs and all
prices from \$2.50 to \$5.00

SHIRT-NECK SUITS
Just to hand, some new lines in
ladies shirt waist suits, washing
goods, ducks, linens etc., \$3 to \$5
each.

LADIES WHITE APRONS
We are showing a very nice line
of plain and fancy white lawn ap-
rons in a range of prices from 50c
to 75c each.

Just Received

GOOD FACES AT OLDS.

Olds, June 18.—The race meet under the auspices of the Olds Turf Association today was an unqualified success.

On former occasions the ardor of the local admirers of the turf has been somewhat dampened by rain storms. Today, however, the weather was ideal, the track was in perfect condition and a very large number of people were enthusiastic in appreciation of the excellent program offered, which was carried out without a hitch.

Mr. W. Wilson, of Innisfail, performed the duties of starter in splendid style. The following were the winners of the races: Gipsy Belle, ridden by Smith's Tommy, with Partridge's Pet following.

Mr. Chappel of Regina had nine horses on the ground. He has intimated to the association that the track is so superior he has decided to train here for the fall season.

BAD MEN SENT DOWN.

Calgary Herald: Chief Justice Sifton at the sitting of the court this morning proceeded to pass sentence on the following prisoners who were convicted at the present sittings:

Wm. Murdoch, convicted of aggravated assault on J. D. O'Neill at Okotoks, was ordered to be imprisoned in the Calgary guardroom for the period of one month.

F. J. T. Bertram, convicted of theft from the Eddington Drug Co., his employer, was sentenced to nine months imprisonment in the Calgary guardroom.

Ell Brillinger, convicted of theft of a horse from James Karr, of Cochrane, was sentenced to six months in the Calgary guardroom in view of the special circumstances of the case.

Henry Callaghan, the film-flammer, who led a brief but merry life in the city some time ago, was sent to Stony Mountain penitentiary for three years.

Jas. R. Kennedy, convicted of theft of a horse from an old blind man at Langdon, was sentenced to three years in Manitoba penitentiary.

Walter Cummings, convicted of housebreaking and theft at the Riverside hotel, was sent to the Manitoba penitentiary for four years in the hope that he would in that time learn a trade so as to lead an honest life in future.

Robt. H. Cuthbertson who had pleaded guilty to four charges of forgery and one of jail-breaking, was ordered to be confined in Manitoba penitentiary for six years on the forgery charges and one year on the jail-breaking charges, making seven years in all.

TWO CHILDREN LOST.

A Moose Jaw despatch says: Further particulars of the loss of two children at Wood Mountain have reached this city. It would seem that there were four horses a short distance from the house, two of which the little girls were in the habit of riding.

They left their homes to bring the horses in. The weather being wet a mist arose and they were unable to find them that night. Next morning the alarm was given. Two of the horses were found only half a mile from the house. The two children were used to riding were found five miles to the southeast. The tracks showed that the little girls had secured the horses and rode them for some miles, afterwards walking and leading them, as shown by their tracks. They had left the horses about where they were found, and continued their wanderings on foot, and their tracks were traced through deep ravines, where it was impossible to ride on horseback, on the edge of a burned tract of prairie, where they retraced their steps, knowing that their home was surrounded by a large unburned area. Their course was now eastward, and they were tracked down a steep ravine to within twenty yards of Mr. Wyman's shack, at which point they returned up the hill. Here the track was lost, but it was again found at Poplar Creek, eight miles from their home. Their footmarks were quite plain in the soft mud, and it would appear that the children had quenched their thirst and turned back, but from this point their track was completely lost.

A large search party of settlers and police are still at work but all hopes of their recovery alive is given up. Had they reached the home of any rancher they would have been heard of before this time, and it is beyond human endurance to stand the cold and exposure without food for so many days. The country into which they wandered is very rough, the ravines being very deep, and the banks so steep that it is almost impossible to ride on horseback through it. The chances, therefore, of finding the children either dead or alive are very doubtful.

SUNDAY OBSERVANCE BILL.

Ottawa, June 16.—The cabinet had under consideration all day Saturday the Sunday observance bill and it was not entirely finished when the hour for adjournment had been reached. Very little, however, remains to be done. It will be finished up tomorrow and proceeded with in the House on Tuesday. Some amendments have been made, but they in no way interfere with the principle of the bill. In view of the many interests involved, great care has to be taken in framing the different clauses. Hon. A. B. Aylesworth will have charge of putting the bill through the house.

Summer Shoes for Women

Whites, Tans and Low Blacks.
The Summer Triplixity

BAD STORM AT REGINA

Regina, June 14.—What promises to be the worst storm in the history of the Northwest prevailed in Regina all night and continues today. A large amount of damage has already been done and it is expected that the toll will reach a considerable sum.

Electric wires have been torn down and the city was in darkness. In many cases telegraph poles are on fire, and only the strenuous efforts on the part of the authorities will avoid a calamity. The mammoth circus tent of the McNehe company was torn in shreds by the wind, and the building rain which was falling at the time, created excitement among the audience and in the panic that ensued, hundreds of people were trampled in the mud, and in many cases were seriously injured. The tent was crowded by about a thousand people, mostly women and children, and the scene which resulted were indescribable. Children were crushed under the seats, and women fainted. Many were seized with terror and fled. A large staff of men are clearing away the obstruction and searching for any who may be crushed beneath the debris. The wind is abating somewhat and the members of the city fire department are assisting in the work of rescue. Many small children are reported as missing. The storm extends west to Medicine Hat and north to Saskatoon.

MILLS NEED WESTERN WHEAT

Ottawa, June 14.—The case of the Dominion Millers' Association on the matter of grain standards was held before the committee on agriculture this morning, and interesting addresses were delivered by J. D. Plaville, of Lindsay, J. T. Spink and C. B. Watts, of Toronto.

The latter was formerly a member of the Western Grain standards board. These gentlemen emphasized the importance of western wheat to Ontario mills. Ontario was increasing its demand and could not get along without western products, hence it was important that the grading should be maintained to such a high quality that millers of Ontario and Quebec would be able to make flour that would enable them to compete in the markets of the world.

FORT SASKATCHEWAN ITEMS

Fort Saskatchewan, June 14. — The program of the teachers convention here was with few exceptions, the same as the Sir-Chisholm convention. Mr. Bryan presided. Mrs. Rev. Forbes gave an afternoon tea to the teachers who attended the convention here and a number of her Fort friends were also invited to attend.

Last evening Miss Webster, Miss McAmmond and Mr. Hook came down from Edmonton to take part in the concert in the Presbyterian church. Although the evening was cold and wet many were present and they were not disappointed as the entertainment was high class.

The following is the program as rendered by the visitors.

Piano solo, "Prelude in C Minor," Mr. Hook.
Reading "Small Fox Picked," Miss McAmmond.
Solo, "There Let Me Rest," Miss Webster.
Pianissimo, "Scherzo in B Minor," Mr. Hook.
Reading "Almost Beyond Endurance," Miss McAmmond.
Solo, "Angus McDonald," Miss Webster.

Piano solo, "Hungarian Rhapsody," Mr. Hook.

Reading "We Macgregor," Miss McAmmond.

Solo, "Creole Love Song," Miss Webster.

Piano solo, "Valse de concert in D minor," Mr. Hook.

Reading (a) "Rugg's dinner party," (b) "A Confidence," Miss McAmmond.

Solo, "May Morning," Miss Webster.

God Save the King.

Rev. Mr. Forbes acted as chairman in a very satisfactory manner. Mr. Hook's selections were greatly enjoyed.

Miss McAmmond, as usual delighted her hearers and won hearty applause and was called on to respond to several encores. Miss Webster is well known in the Fort and splendidly sustained her popularity by her excellent rendering of her selections.

Fort Saskatchewan, June 16.—Danie Simons returned from a business trip to Vermilion City today and proceeded to Calgary.

A large number of people took in the dance given by the Mounted Police here last night. Edmonton, Strathcona, Agriest, Partridge Hills and other places were represented as well as the Fort.

Mr. Hutchings of the Great West Saddlery Co., and one of the leading board of trade men of Calgary, paid

the Fort a short visit, coming down from Edmonton last evening and leaving today.

David Sinclair, who broke his leg some time ago, is getting well on towards recovery.

Mr. C. H. Russell, late principal of the public school here, is paying the Fort a short visit.

The uniforms for "C" division have arrived and have been given out today. The squadron has now received the entire equipment, the officers' uniforms having been received some time ago. A full dress parade has been ordered for Monday evening.

Challenge Cup For Gun Clubs

Red Deer, June 14.—The gun clubs of Central Alberta are much indebted to the Calgary Brewing and Malting Co. for their gift of a handsome cup for competition. This will do much to stimulate this popular sport along the C. & E. line.

The rules governing the contest for the trophy are:
1 This Cup shall be called the Calgary Brewing & Malting Company Challenge Gun Club Trophy.
2 The cup shall be a perpetual challenge cup open to any bona fide gun club in Central Alberta between Calgary and Edmonton, not including these cities.

A team shall be five men each of whom shall shoot at fifteen targets, unknown angles. The club to which the team making the highest total score belongs to be the holder of the trophy. American trap rules will govern.

4 The president and secretary of each club shall certify in writing to the captain of the opposing team before shooting, that each member of the team is a bona fide member of the club, and has been a resident of the town or district within fifteen miles of the club headquarters for sixty days, previous to date of shoot.

5 The following shall be Trustees to the Cup to whom all disputes shall be referred and whose decision shall be final. Mr. W. B. Barvis, of Calgary. In case it is necessary to appoint a new trustee, the Calgary Brewing & Malting Co. shall appoint him.

6 The cup shall be shot for first at Red Deer, July 2nd, at 2 p.m. any club to be allowed to enter one or more teams.

7 Any club wishing to challenge for the cup after this shall send such challenge to the Secretary of the club holding the cup. This club shall within two days, set two dates, not less than one, or more than two weeks from date of challenge, and the challenging club shall within two days, notify the holders which day they accept. Should the holders neglect to do so, such dates, the club shall forfeit the cup to the challenging club unless such club can give to the trustee sufficient reason for not so doing. In such case he shall set a day and place for the cup to be shot for between the two clubs.

8 Before receiving the cup the club shall furnish bonds to the trustee to the amount of \$100. This bond shall be given to the secretary of the club losing the cup as a receipt. His club shall be held responsible for the cup until this bond shall have been sent to the Trustee.

9 The trustee shall have the power to call in the cup at any time he considers it advisable through the decadence of the sport or the violation of these rules, and he shall in such case hand it back to the donors.

10 Any changes to these rules shall be made only by the trustee on the advice of the Calgary Brewing & Malting Company.

NOTICE TO HOUSEHOLDERS

Under the Amendments to the City Charter made at the last session of the Provincial Legislature the exercise of the franchise in civic elections may be secured by any householder on the following conditions, viz:—

"Upon satisfying the Assessor on or before the first day of July in the then current year, that for a period of at least three months prior to the day of July he has bona fide resided in the City and during the said period has been and still is a bona fide occupant of premises therein as tenant, lodger, employee or servant entitled to the possession of the premises, and upon producing the receipt of the Secretary-Treasurer showing the payment of \$5.00 as 'Householder's Tax' shall be entered by the Assessor upon a list to be called the 'Householder's Tax List,' and shall thereupon be exempt from the payment of a poll tax for the then current year."

Householders failing to comply with the above conditions cannot exercise the franchise in municipal elections for the ensuing year, as their names will not appear in the next revised Voters List which cannot be altered after confirmation.

NORWOOD BLOCK. EDMONTON.

LOCAL.

In order to reach the News or Editor's rooms of the Bulletin, ring up Phone No. 450

Mr. Parker has declined to accept the Poffer made by the town council for a bonus to his mill.

Polard's Juvenile Opera Company open a week's engagement in the Theatre on Monday, June 25th.

The services in the Baptist church on Sunday were conducted at 11 a.m. by Rev. A. C. Farrell, B.A., Red Deer, and by Rev. J. Grant, of Strathcona, at 7 p.m.

Forty-eight thousand dollars, or \$300 per acre was the price paid last week for the Beach farm adjoining Regina. The purchaser is John Watson, a Brandon real estate man.

Premier Rutherford left Ottawa on the 13th for Kenville, Ont., his old home, where he will spend a week or ten days before starting west again. His law partners in Strathcona expect him home about the first of the month.

Mr. Campbell, of Woodville, Victoria county, Ontario, is spending a few days in Edmonton having a look over the country. Mr. Campbell and his father are breeders of Shropshire sheep at Woodville, and have taken diplomas and prizes at almost every fair in Canada from Atlantic to Pacific.

Notwithstanding that it rained both afternoon and evening, Norris & Rowe's circus yesterday played to a very large audience on both occasions. The show was as advertised, right down to the red lemonade, and the spectators got their money's worth. The circus is presently in Strathcona today and goes from there south to Calgary and east.

Lacombe Advertiser: A number of Omaha and Minneapolis capitalists acting in conjunction with local men have secured a tract of land on the east shore of Gull lake having a water frontage of about two miles, and are this week laying it out in summer resort lots. The resort will be known as Saratoga Beach.

Revelstoke Mail Herald: Chas. Anderson was literally blown to pieces with dynamite while working in a slope in the 600 foot level of the St. Eugene mine Thursday. The exact cause of the explosion will never be known. It is presumed, however, that he was loading a round of holes and that his powder in some way ignited before he had finished. He probably had 25 pounds of powder with him and had only a part of his holes loaded when the accident occurred.

Montreal Herald: The Pollards last week were a marvel. This week they are a revelation. "A Runaway Girl" with its convent scenes, its school girl chorus, its general delicacy—so utterly different from the tone of American musical comedy as represented by "The Belle"—is much better adapted to the work of this unique company of child artists. And one is glad to note that not a point of their work, its humor, its delicacy, its finish and above all its exquisite naivete and simplicity was missed by one of the largest and friendliest houses that ever gathered in the Academy.

Winnipeg Free Press: The Canadian Pacific will pass through Saskatoon on the way to Wetaskiwin. Mr. John N. Lagan, a right to way man for the company, now in the city, with plans, made the announcement in Saskatoon this week. Mr. Lagan has just concluded a trip over the line from Strassburg to Saskatoon. The first fifteen miles out of Strassburg have been graded, while construction parties are scattered over the next fifteen. The contractors, the British Columbia Contract Co., have sublet a great part of the work, and good progress is being made. At a point about 74 miles southeast from Strassburg and 53 miles from Saskatoon, the junction with the Sheho branch will be made. The Sheho branch, too, is to be put into running shape with all possible speed.

Winnipeg Free Press: Superintendent of transportation A. Price, of the Canadian Pacific Railway, returned from an extended trip of inspection of western lines, during which he went west to Revelstoke and north to Edmonton. "The new country along the Lacombe and Wetaskiwin branches of the C.P.R.," said Mr. Price to the Free Press, "interested me greatly and is equal to anything I have seen in Western Canada. It is evident that this district is to make exceedingly rapid progress during the next few years. The village of Stettler, a thriving place, has been created since last October. In that month there was no building of any kind on the site of the present village. There are now five hundred inhabitants. There are six eating houses, including three or four hotels. There are many people camping, living in tents, etc., until houses can be built. The general business of western lines is increasing with great rapidity. It is about 35 to 40 per cent. in excess of what it was one year ago. The coal mines, the lumber yards and the smelters are all exceedingly busy, some working night as well as day shifts. The probabilities for extensive future developments in the west appear to be very bright in all lines of business."

At the convocation of the University of Chicago, held on Tuesday, June 12th, Mr. J. Carlyle Moore, son of Mr. John T. Moore, M.P.P., of Red Deer, received one of the greatest honors. He received the degree of J. D. (Doctor of Law) which in the graduate School of Law in the great universities corresponds to the degree of Ph. D. in the Schools of Arts and Science in quality and amount of the work demanded. Mr. Moore is a graduate of Toronto, class of 1902, and was in residence at Chicago for a year after graduation. Then he returned to Cegoods H. I. Toronto, to comply with the requirements of the Bar of Ontario, going to Chicago for the spring and summer quarters. In this way he has managed to clear off all examinations and will be called to the bar in September. This is the first time the degree of J. D. has been conferred on a Canadian and if Mr. Moore comes out to Alberta to practise it will be safe to say that in educational equipment for his profession there will be nobody who could be more useful, especially to a young country.

SOCIAL & PERSONAL

Mr. H. L. Brown, of Winnipeg, Assistant General Western Agent of the Allan Line Steamship Co., is in the city.

Mrs. W. Crafts will receive on Thursday of this week, and after that will not receive again until the first Thursday in September.

REPORT EXAGGERATED

Elsewhere in the Bulletin is published an extract from the Regina Standard regarding a recent storm there. The extract was reproduced by the Winnipeg Telegram, and referring to it the Leader says:

"Only by reading the account of Wednesday's storm in yesterday's Winnipeg Telegram will the citizens of Regina understand the awful character of that storm. The vivid picture of blazing telegraph poles, the thousand panic-stricken people, (the circus people say there were only 400), the hundreds of people trampled in the mud the lost babies, and the civic authorities striving with might and main to avert a storm that until the Telegram arrived in the city last night Regina is such as to thrill."

BOYS' BRIGADE

(Contributed)
Sergeant J. Benoit, 65th Reg. C. M. R., of Montreal, desires all the boys who wish to form a boys' brigade to assemble on the mission grounds three times a week. An attractive uniform has been ordered from Montreal and all matters are being arranged to be in readiness for the 24th of June, which is hoped the boys will be seen to the best advantage, in the parade in honor of St. John the Baptist. Parents who are anxious for the physical culture of their sons will do well to consider the matter and encourage them to join the brigade. The exercises not only educate the body, but fit the boy for future citizenship by acquainting him to obey rightful authority exactly and promptly.

T.R.A. TEAM MEET IN CALGARY

From the Calgary Herald: The Territorial Rifle Association meets in Calgary for four days commencing July 17. The prize list is large this year and will consist largely of cash prizes, \$1,200 has already been subscribed, \$700 by Dominion Government, \$300 by the Alberta Government and \$200 by the city Council. The remainder was contributed by the Association.

The Alberta Legislature has voted \$1000 for the sending of a team to take part in the competition at Ottawa next September.

This will be the first occasion on which a western team has competed in the east.

EDMONTON RIFLE ASSOCIATION

The usual practice Saturday, June 19, resulted in some very fair scoring although the elements were not exactly conducive to the same. The following were the scores—

	Yards.	200	500	600	Tl.
J. Carmichael	29	31	30	90
S. S. Brown	31	30	28	89
P. McIntosh	28	29	30	87
W. S. Weeks	25	33	23	81
P. Osborne	26	26	22	74
C. C. Forrester	25	24	23	72
J. J. McKenzie	25	20	25	70
Dr. Ternan	22	25	23	70
K. Collins	16	17	23	59
E. Tomkins	27	29	12	59
Cpt. S. S. Munroe	16	23	18	51

Campbell's Clothing

The Big

THERE IS EVERY REASON WHY
THE MODERN
**POROUS RAIN-
PROOF COAT**
SHOULD BE APPRECIATED.

It has the style and comfort of a spring overcoat and the advantage of being impervious to rain.

This is a garment intended for more than one season's wear and it is advisable to avoid extreme styles and to bear in mind the importance of reliable work.

Our raincoats are made on a basis of thoroughly shrunk canvas; edged stay-stitched with linen tape, also thoroughly shrunk; stitched with silk throughout.

If we have not your size in stock let us take your measure.
